

YOU'VE HEARD IT SAID, "IF YOU BREAK IT, YOU OWN IT."

(Colin Powell, Secretary of State referring to Iraq invasion)

That truism also holds for Land Use Planning in Hawai'i.
But, if it's broken, can we fix it?

Tom Dinell, Professor and founder of the Department of Urban & Regional Planning at the University of Hawai'i at Manoa, knows this to be true:

- Good Land Use Planning really, really, matters.
- Poor land use planning can impact all our lives for a long, long time.

League of Women Voters of Kauai County knows this to be true:

- Kaua'i long range land use planning has only been in place since 1972

BUT for those 34 yesteryears and years and years to come:

- Kaua'i Land Use Planning has affected our yesterdays
- Kaua'i Land Use Planning affects ALL our todays
- Kaua'i Land Use Planning will affect ALL our tomorrows

**YOU ARE INVITED TO ATTEND A PUBLIC
FORUM**

**“MOVING FROM PERMITTING
TO PLANNING”**

Saturday, April 22
